

Data Sheet

5W LED Indestructible Lantern 3D

18760

Designation: 18760

Battery Requirement: 3 x D

Bulb required: 6pcs Luxeon Mid-power cool white LED

Luminous intensity: High: 280 lm or 42 cd
Medium: 110 lm or 16 cd
Low: 32 lm or 5 cd

Range: High 13 m / Medium 8 m / Low 4.5 m
(calculated distance at maximum luminous intensity with an illuminance of 0.25lux).

Weight: 715 g (without batteries).

Material: PA (Polyamide)
PC (Polycarbonate)
TPE (Thermoplastic Elastome)
All contact parts made of bronze or nickel plated steel.

Dimensions (mm):	A	215
	B	94
	C	102

Run Time: 42 hours with VARTA HE for High mode
92 hours with VARTA HE for Medium mode
280 hours with VARTA HE for Low mode

Features:

- 6 pcs Luxeon Mid-power cool white LED
- IC control Push switch (High/Medium/Low/Off)
- 4.6 meters (15 feet) impact resistant
- IPX7 water proof
- Ambidextrous handle can be flipped up from either side
- Integrated hook in lantern base
- Extra thick housing & over mould rubber for maximum durability
- Passed extreme temperature shock test
- 10,000 Switch cycle life
